

Safety Data Sheet TUF-Fil Aluminum

Section 1 Identification Product identifiers Product name: TUF-Fil Aluminum Relevant identified uses of the substance or mixture and uses advised against Identified uses: Polyester Repair Paste Details of the supplier of the safety data sheet Freeman Manufacturing and Supply Company 1101 Moore Road, Avon, OH 44011 Phone (440) 934-1902 FAX (440) 934-7200

24 Hour emergency telephone number: CHEMTREC (800) 424-9300

Section 2 Hazards Identification

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture

Flammable liquids, Category 3 Skin corrosion/irritation, Category 3 Serious eye damage/eye irritation, Category 2 Acute toxicity (Inhalation), Category 4 Reproductive toxicity, Category 2 Carcinogenicity, Category 2 Specific target organ toxicity (repeated exposure), Category 1

GHS Label elements

Signal word

Danger

Hazard statements

Flammable liquid and vapor. Harmfulif inhaled. Suspected of damaging the unborn child. Suspected of causing cancer. Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. Causes damage to organs through prolonged or repeated exposure if inhaled. May be fatal if swallowed or enters airway

Section 2 Hazards Identification continued

Precautionary statements Prevention Keep away from heat, sparks, open flames and hot surfaces. - No smoking. Keep container tightly closed. Do not breathe fumes or vapors. Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. Use only in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Avoid release to the environment. Response If on skin: Remove/take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. If inhaled: Remove person to fresh air and call doctor/physician if not feeling well. If in eyes: Rinse continuously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. If eve irritation persists: Get medical advice/attention. Storage Store in a well-ventilated place. Keep cool. Keep container tightly closed. Disposal Dispose of contents and container in accordance with all local, regional, national and international regulations. Hazards not otherwise classified (HNOC) or not covered by GHS None known Section 3 Composition/Information on Ingredients Ingredient Name CAS Number **Concentration (%)** Polyester polymer Proprietary 10-30 100-42-5 10-30 Styrene monomer Talc 14807-96-6 10-30 Titanium dioxide 13463-67-7 1-5 Quartz silica 14808-60-7 < 0.5 N,N-Dimethylaniline 121-69-7 < 0.5 N,N-Diethylaniline 91-66-7 < 0.5 **Section 4 First-Aid Measures Description of first aid measures** If inhaled Move the victim to a safe area as soon as possible. If feeling unwell, get medical attention. In case of skin contact Immediately flush skin with plenty of water. Remove contaminated clothing and shoes. If irritation persists, seek medical attention. Wash contaminated clothing before reuse. In case of eye contact Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Immediately get medical attention. If swallowed Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. If feeling unwell, get medical attention. Date of Preparation: May 22, 2020

Section 4 First-Aid Measures continued
Most important symptoms and effects, both acute and delayed
See Section 2 and/or in Section 11.
Indication of any immediate medical attention and special treatment needed
See toxicological information in Section 11. Notes to physician: Treat symptomatically.
Notes to physiciali: freat symptomatically.
Section 5 Fire-Fighting Measures
Suitable extinguishing media
Use dry chemical, carbon dioxide, water spray (fog), or alcohol-resistant foam.
Unsuitable extinguishing media
Do not use water jet.
Special hazards arising from the substance or mixture
In a fire or if heated, a pressure increase may occur and the container may burst, with the
risk of a subsequent explosion.
Hazardous thermal decomposition products
During combustion, decomposition products may include: carbon dioxide, carbon
monoxide, sulfur oxides, halogenated compounds, metal oxide/oxides
Special protective equipment for fire-fighters
Fire-fighters should wear appropriate protective equipment and self-contained breathing
apparatus (SCBA) with a full face-piece operated in positive pressure mode. Water may not
effectively extinguish fire; however, it should be used to keep fire-exposed containers and
surfaces cool and prevent explosive rupture.
Section 6 Accidental Release Measures
Personal precautions, protective equipment and emergency procedures
Avoid breathing vapors, mist or gas.
For personal protection see Section 8.
Environmental precautions
Do not let product enter drains.
Methods and materials for containment and cleaning up
Sweep up and shovel into suitable containers. Keep tightly closed.
Dispose of via a licensed waste disposal contractor.
Section 7 Handling and Storage
Precautions for safe handling
Use normal precautions when handling flammable materials. Do not breathe fumes or vapor. Do
not allow material to contact skin. Provide appropriate exhaust ventilation.
Conditions for safe storage, including any incompatibilities
Store in original container protected from direct sunlight in a dry, cool and well-ventilated
area, away from food and drink. Eliminate all ignition sources. Segregate from oxidizing
materials. Keep container tightly closed and sealed until ready for use. Containers that have
been opened must be carefully resealed and kept upright to prevent leakage.

Section 8 Exposure Controls/Personal Protection

Components with occupational exposure limits

Ingredient	05	SHA	ACGIH	
	PEL	STEL	TWA	STEL
Styrene monomer	50 ppm	100 ppm	20 ppm	40 ppm
Titanium dioxide	15 mg/m ³ (total dust)	15 mg/m ³	10 mg/m ³	Not established
Talc	2 mg/m ³ (respirable faction)	Not established	2 mg/m ³ (respirable faction)	Not established
N,N- Dimethylaniline	5 ppm (skin)	Not established	5 ppm	10 ppm

Appropriate engineering controls

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of mists and/or vapors below the recommended exposure limits. An eye wash station and safety shower should be located near the workstation.

Personal protective equipment

Eye/face protection

Use safety eyewear complying with an approved standard when a risk assessment indicates this is necessary. Vented goggles are recommended.

Hand Protection

Use disposable gloves to prevent skin contact. Contaminated gloves should be replaced. **Body Protection**

Prevent skin contact when handling material.

Respiratory Protection

The need for respiratory protection is not anticipated under normal use conditions and with adequate ventilation. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, use a properly fitted, air-purifying or air-fed respirator complying with an approved standard

General Hygienic Practices

Avoid breathing vapor or mist. Avoid contamination of food, beverages, or smoking materials. Wash thoroughly after handling, and before eating, drinking or smoking. Remove contaminated clothing promptly and clean thoroughly before reuse.

Section 9 Physical and Chemical Properties			
Appearance	Light gray paste		
Odor	Styrene		
Odor Threshold	No data available		
pH	No data available		
Melting Point	No data available		
VOC Content	1.20 lb./gallon		
Initial boiling point & boiling range	No data available		
Flash Point	35°C (95°F)		
Evaporation rate	No data available		
Flammability (solid, gas)	No data available		
Upper/lower flammability	No data available		
Vapor Pressure	No data available

Vapor density Relative density (g/cc) Water Solubility **Coefficient:** n-octanol/water Auto-ignition temperature Viscosity % Volatile

No data available 1.7 ± 0.05 Negligible No data available No data available No data available 10-15%

Section 10 Stability and Reactivity

Reactivity

No data available

Chemical stability

Stable under recommended storage conditions

Possibility of hazardous reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid

Avoid all possible sources of ignition.

Incompatible materials

Oxidizing agents

Hazardous decomposition products

Thermal oxidative decomposition can produce carbon monoxide and carbon dioxide.

Section 11 Toxicological Information

Information on toxicological effects

Acute toxicity of product

No data available

Acute toxicity of components

Ingredient	Result	Species	Dose	Exposure
Styrene	LD50 Oral	Rat	2,650 mg/kg	
	LC50 Inhalation	Rat	$12,000 \text{ mg/m}^3$	4 hours
	LD50 Dermal	Rat	> 2,000 mg/kg	
Titanium dioxide	LD50 Oral	Rat	> 5,000 mg/kg	
	LC50 Inhalation	Rat	> 6.82 mg/l	4 hours
	LD50 Dermal	Rabbit	> 10,000 mg/kg	
N,N-Dimethylaniline	LD50 Dermal	Rabbit	1770 mg/kg	
	LD50 Oral	Rat	1120 mg/kg	
N,N-Diethylaniline	LD50 Oral	Rat	606 mg/kg	
	LC50 Inhalation	Rat	1920 mg/m ³	4 hours
	LD50 Dermal	Rat	>5000 mg/kg	

Skin corrosion/irritation **Serious eye damage/eye irritation** Mild eye irritant **Respiratory or skin sensitization** Germ cell mutagenicity Carcinogenicity

Mild skin irritant May cause sensitization No data available

IARC: Group 1: Carcinogenic to humans (Ouartz silica) Group 2B: Possibly carcinogenic to humans (Styrene). Group 2B: Possibly carcinogenic to humans (Titanium Dioxide).
