**Section 4 First Aid Measures**

**4.1 Description of first aid measures**

**Inhalation** Get medical assistance if irritation develops or persists. If breathing is difficult, move the person to fresh air. Give artificial respiration if person is not breathing.

**Skin contact** For contact at ambient temperatures, wash with soap and water.

**Eye contact** Immediately flush with plenty of water for at least 15 minutes.  
 If irritation persists, get medical attention immediately.

**Ingestion** If swallowed, rinse mouth with water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Consult a physician if necessary.

**Section 5 Fire Fighting Measures**

**5.1 Extinguishing media**

**Suitable extinguishing media:** Water fog, dry chemical, foam, carbon dioxide.

**Unsuitable extinguishing media:** Do not use a solid water stream as it may scatter and spread fire.

**5.2 Special hazards arising from the substance or mixture**

**Unusual Fire and Explosion Hazards:** Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

**Hazardous Combustion Products:** Carbon dioxide, carbon monoxide, irritating smoke.

**5.3 Advice for firefighters**

Wear self-contained breathing apparatus for firefighting if necessary.

## Section 6 Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes. Do not breath dust or fumes.

Wear appropriate personal protective equipment, see Section 8.

### 6.2 Environmental precautions

Should not be released into the environment. Prevent product from entering drains.

### 6.3 Methods and materials for containment and cleaning up

Use clean non-sparking tools to collect material into suitable container for disposal.

## Section 7 Handling and Storage

### 7.1 Precautions for safe handling

Wash thoroughly with soap and water after handling. Provide appropriate exhaust ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

Store at ambient temperatures in closed containers. Keep away from ignition sources, heat, open flames, and direct sunlight. Do not heat this material above the flash point. Do not store with strong oxidizers.

## Section 8 Exposure Controls/Personal Protection

### 8.1 Control parameters

#### Exposure Limits/Guideline

Substance Name	Limit / Standard	Source
Wax fumes	2 mg/m <sup>3</sup> TWA	ACGIH

### 8.2 Exposure controls

#### Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Supplementary local exhaust ventilation, closed systems, or respiratory and eye protection may be needed in special circumstances, such as poorly ventilated spaces, very hot processing, mechanical generation of dusts, etc.

### 8.3 Personal protective equipment

#### Eye/Face

Wear safety glasses equipped with side shields, or safety goggles.

#### Skin/Hands

Wear gloves with repeated or prolonged use. Avoid skin contact.

#### Respiratory

The need for respiratory protection is not anticipated under normal use conditions and with adequate ventilation. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, use an N95 dust mask or an air-purifying respirator. Follow the OSHA respirator regulations found in 29 CFR 1910.134. Use a NIOSH approved respirator if exposure limits are exceeded or symptoms are experienced.

#### Safety Stations

Make emergency eyewash stations and washing facilities available in work area.

#### General Hygienic Practices

Avoid contamination of food, beverages, or smoking materials. Wash thoroughly after handling, and before eating, drinking or smoking. Remove contaminated clothing promptly and clean thoroughly before reuse. available in work area.
