

## MATERIAL SAFETY DATA SHEET

MSDS NAME: CN-3679 SOLVENT THINNER / BACOLAC REDUCER

MSDS Number: 81002D

Version Number

MSDS Date: 05/07/02 Printed On: 05/07/02

---

### SECTION I - PRODUCT IDENTIFICATION

Product Name: CN-3679 SOLVENT THINNER  
CAS Number MIXTURE  
Hazard Rating: Health: 3 Fire: 3 Reactivity: 0 PPI: G  
Company Identification: DELL MARKING SYSTEMS, INC  
721 WANDA AVENUE  
FERNDALE MI 48220

Contact: CHEMTREC

Telephone/Fax: (248) 547-7750 (248) 544-9115

Emergency Phone (24 Hour): CHEMTREC  
1-800-424-9300

Chemtrec (24 Hour): 1-800-424-9300

Product Class SOLVENT THINNER

Trade Name CN-3679 SOLVENT

Product Code 81002D

DOT Hazard Class

UN Number UN1263

Shipping Name PAINT RELATED MATERIAL

Technical Name

Shipping Description 3, UN1263, II

---

### SECTION II - HAZARD INGREDIENTS

---

Ingredient Name	CAS NUMBER	PERCENT	TSCA	VP(mm Hg)
*TOLUENE	108-88-3	50-75	Y	22
ISOPROPANOL	67-63-0	5-20	Y	96
*METHYL ISOBUTYL KETONE	108-10-1	5-20	Y	15
*METHYL ETHYL KETONE	78-93-3	5-20	Y	70.9
DIISOBUTYL KETONE	108-83-8	1-5	Y	1.7

\*\*\* ALL Ingredients in this product are listed in the T.S.C.A. Inventory

\* Indicates a Chemical subject to SARA Title III, section 313 release reporting (EPA Regulation 40 CFR 372). Diisobutyl ketone is stable, but may form peroxides of unknown stability

N.E. = Not Established

---

### SECTION III - PHYSICAL DATA

---

Form:	THIN CLEAR LIQUID, SOLVENT ODOR.
pH Value:	0.
Boiling Range:	175. F - 325. F (79.44 C - 162.78 C)
Melting Point:	NA
Evaporation Rate:	Faster than n-Butyl Acetate
Vapor Density:	Heavier than air
% Volatile Weight	100.%
% Volatile (Volume):	100.%
Specific Gravity:	0.8391
VOC	7.01 LBS/GAL

---

---

### SECTION IV - FIRE AND EXPLOSION HAZARD DATA

---

Flammability Class	1B
Flash Point:	32 F
LEL / UEL:	0.8% / 11.5%

#### EXTINGUISHING MEDIA:

Use "alcohol" foam, water spray, dry chemical, or carbon dioxide to put out fires. Use media suitable for surrounding fire. Plan fire protection and response strategy through consultation with local fire protection authorities or appropriate specialists.

#### SPECIAL FIREFIGHTING PROCEDURES:

Clear area of unprotected personnel. Firefighters should wear NIOSH-approved, self-contained breathing apparatus. Use water spray to cool fire-exposed surfaces. Also, use water to flush spilled material away from source. Vapors are harmful; stay upwind of a fire to minimize breathing of vapors, gases, fumes or decomposition products being generated.

#### UNUSUAL FIRE & EXPLOSION HAZARDS:

Containers exposed to intense heat from fire must be cooled to prevent vapor pressure build-up which may result in container rupture. Cool containers exposed directly to flames with large quantities of water as needed to prevent weakening of container itself. Never use a welding or cutting torch on or near container.

EMPTY CONTAINER WARNING: "EMPTY" containers contain

residues (liquid, solid, and/or vapor) that can be dangerous. DO NOT pressurize, cut, weld, braze, grind, drill, solder or expose containers to heat, sparks, open flame. They may explode and cause injury and/or death. DO NOT attempt to clean drums. Residues are difficult to remove. "EMPTY" drums should be completely drained, properly bunged and promptly returned to a drum reconditioner. Dispose of all containers in an environmentally safe way and in accordance with governmental regulations. For work on tanks, refer to OSHA regulations ANSI Z49.1 and other governmental and industrial references pertaining to cleaning, repairing, welding or other operations.

---

## **SECTION V - HEALTH HAZARD DATA**

---

### **PERMISSIBLE EXPOSURE LEVEL:**

Avoid contact with skin and clothing. Avoid breathing vapors. Use with adequate ventilation to maintain levels below PEL.

### **EFFECTS OF OVEREXPOSURE:**

**INHALATION:** Vapors can cause irritation to nose, throat and respiratory tract. High vapor concentrations may result in central nervous system (CNS) depression evidenced by giddiness, headache, dizziness and nausea. In extreme cases, unconsciousness and death can occur.

**SKIN:** Prolonged or repeated contact with liquid can cause drying and/or defatting of the skin which may promote dermatitis and irritation. **ABSORPTION:** Some components may absorb through the skin and cause CNS effects similar to inhalation.

**EYES:** Direct eye contact with liquid will cause burning, redness and tearing. Contact with vapors are irritating to eyes.

**INGESTION:** Swallowing of product will cause gastrointestinal distress, nausea, vomiting and/or diarrhea. Material is moderately toxic by ingestion.

**AGGRAVATED MEDICAL CONDITION:** Pre-existing skin and respiratory disorders may be aggravated by this product.

### **FIRST AID:**

**INHALATION:** Remove victim to fresh air. If breathing difficulties develop, administer oxygen and get medical attention.

If victim is not breathing, administer artificial respiration and get medical attention.

**SKIN:** Flush affected areas with large amounts of water, remove contaminated clothing. Wash affected areas thoroughly with soap and water. If irritation or redness persists or develops, get medical attention.

**EYES:** Immediately flush eyes with a directed stream of water for at least 15 minutes while holding eyelids open. If irri-

tation or redness develops or persists, get medical attention.  
INGESTION: DO NOT INDUCE VOMITING. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. (Aspiration pneumonitis can be fatal.) Give victim lukewarm water if conscious and alert. GET IMMEDIATE MEDICAL ATTENTION.

Ingestion of as little as 10 ml of Isopropanol may cause serious injury, while ingestion of 100 ml can be fatal. The single lethal dose for an adult is approximately 250 ml. FOR INGESTION OF ISOPROPANOL: Give victim milk or water. Induce vomiting by sticking finger to back of throat. Contact a physician or POISON CONTROL CENTER.

---

## **SECTION VI - REACTIVITY DATA**

---

Stability: This product is stable  
Hazardous Polymerization: Hazardous polymerization will not occur  
INCOMPATIBILITY  
Strong oxidizing agents.  
CONDITIONS TO AVOID:  
Heat, sparks, open flame, and static discharge.  
HAZARDOUS DECOMPOSITION PRODUCTS:  
Carbon monoxide, carbon dioxide, oxides of nitrogen, and other organic combustion products.

---

## **SECTION VII - SPILL OR LEAK PROCEDURES**

---

### **STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED**

Eliminate all sources of ignition. Ground handling equipment to prevent static discharge and sparking. Insure adequate ventilation. Recover small amounts of material by absorbing with an inert absorbent and scooping into properly labeled disposal drum. For large spills, evacuate area. Allow only properly trained and equipped personnel in area. Shut off source of leak only when safe to do so. Dike and contain material. If vapor cloud forms, water fog may be used to suppress it. Contain run-off water. Remove with vacuum truck or pump into grounded salvage vessel. Absorb residue with inert absorbant and place into properly labeled disposal drum. Do not allow run-off water or product to enter sewers or water ways.

### **WASTE DISPOSAL METHOD:**

Licensed waste treatment facility or reclaimer.  
The reportable quantity for Toluene is 1000 lbs.  
The hazardous waste number for Toluene is U220.  
The hazardous waste number for isopropanol is D001.  
There are no reportable quantities listed for isopropanol.

The reportable quantity for methyl ethyl ketone is 5000 lbs.  
There is no hazardous waste number indicated for methyl ethyl ketone.

The reportable quantity for Methyl Isobutyl Ketone is 5000 lbs.  
The hazardous waste number for Methyl Isobutyl Ketone is U161.  
There are no reportable quantities listed for Diisobutyl Ketone.  
There is no hazardous waste number indicated for Diisobutyl Ketone.

---

## SECTION VIII - SPECIAL PROTECTION INFORMATION

---

### Occupational Exposure Limits

	ACGIH TLV	ACGIH STEL	OSHA STEL	OSHA PEL
*TOLUENE	50.00 PPM	150.00 PPM	150.00 PPM	100.00 PPM
ISOPROPANOL	400.00 PPM	500.00 PPM	500.00 PPM	400.00 PPM
*METHYL ISOBUTYL KETONE	50.00 PPM	75.00 PPM	75.00 PPM	50.00 PPM
*METHYL ETHYL KETONE	200.00 PPM	300.00 PPM	300.00 PPM	200.00 PPM
DIISOBUTYL KETONE	25.00 PPM	N/est	N/est	25.00 PPM

### RESPIRATORY PROTECTION:

NIOSH approved for organic vapors. In accordance with 29 CFR 19 10.134. Use either an atmosphere-supplying respirator or an air purifying respirator for organic vapors.

### VENTILATION:

Use material only with adequate ventilation to prevent exceeding the recommended exposure limit or a buildup of explosive concentrations in the air. Use explosion proof equipment. No smoking or open lights. Air dry contaminated clothing in a well ventilated area before laundering.

### PROTECTIVE GLOVES:

Recommended; chemical resistant

The recommended gloves for isopropanol are nitrile, neoprene, or natural rubber.

### EYE PROTECTION:

Safety glasses with side shields

### OTHER PROTECTIVE EQUIPMENT:

As required to minimize skin contact depending on use of material. An eyewash and safety shower should be located close to work area. Use explosion proof ventilation as required to control vapor concentrations.

---

## SECTION IX - SPECIAL PRECAUTIONS

---

### PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING:

**WORK/HYGIENIC PRACTICES:** Ground all equipment to prevent static discharge. Keep containers away from heat, sparks, and open flame. Wash thoroughly with soap and water after handling material.

**STORAGE:** Keep liquid from heat, sparks, open flame, and all sources of ignition. Surfaces that are sufficiently hot may ignite product even in the absence of sparks or flame. Vapors can accumulate and travel to ignition sources distant from handling site: Flash fire can result. Store material in a cool area and away from direct sunlight. Keep containers closed when not in use. Use material with adequate ventilation.

**SEE EMPTY CONTAINER WARNING UNDER UNUSUAL FIRE AND EXPLOSION HAZARDS.**

### OTHER PRECAUTIONS:

N/AV= Not Available NE=Not established ND=No data found  
N/AP= Not Applicable UNK= Unknown

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of this data or the results to be obtained from the use thereof. We neither suggest nor guarantee that any hazards mentioned are the only ones which exist. Employers should use this information only as a supplement to other information to assure proper use of this material and the health and safety of employees.

---

## SECTION X - ADDITIONAL REGULATORY INFORMATION

---

### SARA TITLE III SECTION 313:

This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right to Know Act of 1986 and of 40 CFR 372:

Ingredient Name	CAS Number	Percent
*TOLUENE	108-88-3	50-75
*METHYL ISOBUTYL KETONE	108-10-1	5-20
*METHYL ETHYL KETONE	78-93-3	5-20

-PROP 65 (CARCINOGEN)

**WARNING:** This product contains a chemical known to the state of California to cause cancer.

Ingredient Name	CAS Number	Percent
-----------------	------------	---------

---

NONE

-PROP 65 (TERATOGEN)

**WARNING:** This product contains a chemical known to the state of

California to cause birth defects or other reproductive harm.

Ingredient Name	CAS Number	Percent
-----------------	------------	---------

NONE

-PROP 65 (BOTH CARCINOGEN AND TERATOGEN)

WARNING: This product may contain a chemical known to the state of California to cause cancer or birth defects or other reproductive harm.

Ingredient Name	CAS Number	Percent
