

Freeman 90-1 White Pattern Coating

Section 1 Identification

Jection	
Product identifiers	
Product name: Freeman 90-1 White Pattern Coa	
Relevant identified uses of the substance or mixture	and uses advised against
Identified uses: Pattern Coating	
Details of the supplier of the safety data sheet:	
Freeman Manufacturing & Supply Company	
1101 Moore Road, Avon, OH 44011	
Phone (440) 934-1902	24 Hour Emergency Phone Number:
Email contactus@freemansupply.com	(800) 424-9300
Section 2 Ha	azards Identification
GHS Classification in accordance with 29 CFR 1910.1	200 (05HA HCS)
Flammable Liquid, Category 1	
Skin Corrosive, Category 2	
Eye Corrosive, Category 2A	
Mutagen, Category 1B	
Carcinogen, Category 1B	
Reproductive Toxin, Category 1A	
Aspiration Hazard, Category 1	
GHS Label elements	
Signal word: Danger	
Hazard statements	
Extremely flammable liquid and vapor	
May be fatal if swallowed and enters airways	
Causes skin irritation	
Causes serious eye irritation	
May cause genetic defects	
May cause cancer May damage fertility or the unborn child	
Precautionary statements	
Prevention: Obtain special instructions before u	1150
Do not handle until all safety precautions have b	
Keep away from heat/sparks/open flames/hot s	
Keep container tightly closed.	anaces no shoung.
Ground/bond container and receiving equipment	nt.
Use explosion-proof electrical/ventilating/lighti	
Use only non-sparking tools.	
Take precautionary measures against static disc	harge.
Wash thoroughly after handling.	
Wear protective gloves/protective clothing/eye	protection/face protection.
Use personal protective equipment as required.	

Freeman 90-1 White Pattern Coating

Section 2 Hazards Identification continued

Response: Take off contaminated clothing and wash before reuse.

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting. IF ON SKIN: Wash with soap and water.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. IF exposed or concerned: Get medical advice/attention.

In case of fire: Use alcohol resistant foam, dry chemical, carbon dioxide (CO2), dry sand for extinction **Storage:** Store locked up. Store in a well-ventilated place. Keep cool.

Disposal: Dispose of contents and container to an appropriate waste site in accordance with local and national regulations.

Ingredient Name	CAS Number	Weight Concentration %
Titanium dioxide	13463-67-7	10.00 - 20.00
Isopropyl alcohol	67-63-0	10.00 - 20.00
Xylenes (o-, m-, p-isomers)	1330-20-7	10.00 - 20.00
Proprietary alkyd resin	N/A	5.00 - 10.00
n-Amyl acetate	628-63-7	5.00 - 10.00
Nitrocellulose	9004-70-0	5.00 - 10.00
Methyl ethyl ketone	78-93-3	5.00 - 10.00
Toluene	108-88-3	1.00 - 5.00
2-Pentanone, 4-methyl	108-10-1	1.00 - 5.00
2-Methylbutyl acetate	624-41-9	1.00 - 5.00
Naphtha, petroleum, hydrotreated light	64742-49-0	1.00 - 5.00
Ethylbenzene	100-41-4	1.00 - 5.00
Diisononyl phthalate	28553-12-0	1.00 - 5.00
2-Butoxyethanol	111-76-2	1.00 - 5.00
Isopropyl acetate	108-21-4	1.00 - 5.00
n-Butyl acetate	123-86-4	1.00 - 5.00
Cumene	98-82-8	<0.1

Section 4 First Aid Measures

If inhaled: Immediately supply fresh air. Keep patient in restful and comfortable position for breathing. If required provide artificial respiration, although this may be dangerous. Consult doctor if symptoms persist. **In case of skin contact:** Remove contaminated clothing and shoes. Immediately wash with water and soap, rinse thoroughly. If skin irritation continues, consult a doctor.

In case of eye contact: Immediately rinse opened eye(s) for several minutes under running water. Use lukewarm water if possible. Remove contact lenses if worn. Get medical attention.

If swallowed: Immediately get medical attention. Call a poison center or physician. Rinse out mouth and then drink small amounts of water. Do not induce vomiting as this may be dangerous. Aspiration hazard if swallowed, can enter lungs and cause damage. If vomiting occurs, the head should be kept low to avoid vomit entering the lungs. Maintain an open airway.

Note to physician: Treat symptomatically

Freeman 90-1 White Pattern Coating

Section 5 Fire-Fighting Measures

Extinguishing Media

Alcohol resistant foam, Fire-extinguishing powder, Carbon dioxide

Special Hazards Arising from the Substance of Mixture

Formation of toxic gases is possible during heating or in case of fire. Check flammability in section 2 of this sheet. Mixture in sealed and heated containers may cause explosion hazard.

Hazardous Combustion Products may include the following

Carbon oxides. Metal oxide(s). Nitrogen oxides. Can form explosive vapor-air mixtures. Vapors are heavier than air and may spread along floors. Vapors may travel considerable distance to source of ignition and flash back.

Advice for Firefighters

Clear fire area of unprotected personnel. Containers that are exposed to intense heat should be cooled with water. Avoid spreading burning liquid with the water used for cooling purposes. Do not enter fire area without protective gear. Fight fire from safe distance or a protected location.

Fire Equipment

Wear self-contained respiratory protective device. Dispose of fire debris and contaminated firefighting water in accordance with official regulations.

Section 6 Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away. Keep away from ignition sources. Wear protective clothing. Keep from contacting skin or eyes. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. If any equipment is necessary, ensure that it is non-sparking and electrically protected.

Environmental precautions

Do not allow product to reach sewage system or any water source. In case of seepage into the ground inform responsible authorities. Prevent from spreading (e.g. by damming-in or oil barriers). Keep contaminated washing water and dispose of appropriately.

Methods and materials for containment and cleaning up

Ensure adequate ventilation. Absorb with liquid binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of contaminated material as waste. Do not flush with water or aqueous cleansing agents. Send for recovery or disposal in suitable receptacles according to local, State and Federal regulations.

Section 7 Handling and Storage

Precautions for safe handling

Apply proper ventilation, possibly combined with local exhaust. Do not eat, smoke or drink during use. For personal protection see Section 8. Keep away from sources of ignition. Keep material out of reach of children. Use only explosion proof equipment. Wash thoroughly after handling.

Information about protection against explosions and fires:

Keep ignition sources away - Do not smoke. Protect against electrostatic charges by bonding and grounding product containers before and during material. transfers. Keep respiratory protective device available.

Conditions for safe storage, including any incompatibilities

Keep away from sources of ignition - no smoking. Store in a cool, well-ventilated place. Keep in original, closed packaging. Comply with governmental regulations. Keep container tightly closed. Store out of direct sunlight, between 40°F and 90°F.

Freeman 90-1 White Pattern Coating

Section 8 Exposure Controls/Personal Protection

Components with workplace control parameters

Ingredient	OSHA Exposure Limits	ACGIH Exposure Limits	
	TWA	TWA	STEL
Titanium dioxide	15 mg/m ³ (total dust)	10 mg/m ³	
Isopropyl alcohol	400 ppm; 980 mg/m ³	200 ppm	400 ppm
Xylenes (o-, m-, p- isomers)	100 ppm; 435 mg/m ³	100 ppm	150 ppm
n-Amyl acetate	100 ppm, 525 mg/m ³	50 ppm	100 ppm
Nitrocellulose	Not established	Not established	Not established
Methyl ethyl ketone	200 ppm; 590 mg/m ³	200 ppm	300 ppm
Toluene	200 ppm	20 ppm	Not established
2-Methylbutyl acetate	Not established	50 ppm	100 ppm
Ethylbenzene	100 ppm; 435 mg/m ³	20 ppm	Not established
Diisononyl phthalate	Not established	Not established	Not established
2-Butoxyethanol	50 ppm; 240 mg/m ³	20 ppm	Not established
2-Pentanone, 4-methyl	100 ppm; 410 mg/m ³	20 ppm	75 ppm
Isopropyl acetate	250 ppm; 950 mg/m ³	100 ppm	200 ppm
n-Butyl acetate	150 ppm; 710 mg/m ³	150 ppm	200 ppm
Cumene	50 ppm; 245 mg/m ³	50 ppm	Not established

Appropriate engineering controls

All ventilation should be designed in accordance with OSHA standard (29 CFR 1910 .94). Use local exhaust at filling zones and where leakage and dust formation is probable. Use mechanical (general) ventilation for storage areas. Use appropriate ventilation as required to keep Exposure Limits in Air below TLV & PEL limits. Eyewash stations and safety showers should be readily available in use and handling areas.

Personal protective equipment (PPE)

Eye/face protection: Avoid contact with eyes. Wear goggles if there is a likelihood of contact with eyes. (Consult your safety equipment. supplier.) Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

Hand and skin protection: Protective gloves are required for prolonged or repeated contact. Wear resistant gloves such as natural rubber, neoprene, buna N or nitrile. An apron should be worn to avoid skin contact. (Consult your safety equipment supplier.)

Respiratory protection: In outdoor or open areas use (NIOSH/MSHA approved) mechanical filter respirator to remove solid airborne particles of overspray during spray application. In restricted ventilation areas use (NIOSH/MSHA approved) chemical-mechanical filters designed to remove a combination of particulate and gas and vapor. In confined areas use (NIOSH/MSHA approved) airline type respirators or hoods. Respiratory protection may also be necessary in any later manufacturing operations in which the product may become airborne in the form of vapor or dust.

General hygienic practices

Avoid breathing vapor or mist. Avoid contamination of food, beverages, or smoking materials. Wash thoroughly after handling, and before eating, drinking or smoking. Remove contaminated clothing promptly and clean thoroughly before reuse.
