

DATA SHEET

**P.T.F.E Coated Fiberglass Fabrics**

Description

**Release Ease P.T.F.E Coated Fiberglass Fabrics** will provide release from all conventional resin systems. Porous products will allow excess resin, volatiles and trapped air to escape into the breather during cure while non-porous products will retain resin. **Release Ease** products have a continuous service temperature to 550°F (288°C).

Products
