Araldite® 2041 A/B Adhesive

HIGH-STRENGTH POLYURETHANE ADHESIVE

DESCRIPTION:

Araldite[®] 2041 A/B polyurethane adhesive is a two-part system specifically formulated for bonding plastics including polycarbonate, ABS, nylon and Metton^{®1} with minimal substrate preparation. It also performs well when bonding primed metals. Cured Araldite[®] 2041 A/B polyurethane adhesive features good environmental stability and impact resistance. It also has been successfully used for bonding painted metals.

APPLICATIONS:

- Polycarbonate
- ABS
- Nylon
- Metton
- Vulcanized rubber
- Primed metals

ADVANTAGES:

- Excellent flexibility
- Convenient mix ratio
- Bonds a wide variety of materials

TYPICAL CURED PROPERTIES:

Application of Adhesive

The resin/hardener mix is applied with a spatula to the pretreated and dry joint surfaces.

A layer of adhesive 0.002 to 0.004-inches (0.05 to 0.10-mm) thick will normally impart the greatest lap shear strength to a joint.

The joint components should be assembled and clamped as soon as the adhesive has been applied. Even contact throughout suffices to ensure proper cure.

Standard Test Specimens

Unless otherwise stated, the figures given below were all determined by testing standard specimens made up by lap-jointing 4-inch x 1-inch x 0.06-inch (10-cm x 2.5-cm x 1.5-mm) strips of aluminum. The joint area was 0.5×1 inch (12.5 mm x 2.5 cm) in each case.

CAUTION:

Huntsman Advances Materials Americas Inc. maintains up-to-date Material Safety Data Sheet (MSDS) on all of its products. These sheets contain pertinent information that you may need to protect your employees and customers against any known health or safety hazards associated with our products. Users should review the latest MSDS to determine possible health hazards and appropriate precautions to implement <u>prior to</u> using this material. Copies of the latest MSDS may be requested by calling our customer service group at 800-367-8793 or emailing your request to <u>adhesives group@huntsman.com</u>

To protect against any potential health risks presented by our products, the use of proper personal protective equipment (PPE) is recommended. Eye and skin protection is normally advised. Respiratory protection may be needed if mechanical ventilation is not available or is insufficient to remove vapors. For detailed PPE recommendations and exposure control options consult the product MSDS or a Huntsman EHS representative.

FIRST AID:

<u>Eyes and skin</u>: Flush eyes with water for 15 minutes. Contact a physician if irritation persists. Wash skin thoroughly with soap and water. Remove and wash contaminated clothing before reuse.

<u>Inhalation</u>: Remove subject to fresh air.

<u>Swallowing</u>: Dilute by giving water to drink and contact a physician promptly. Never give anything to drink to an unconscious person.
