

# Master Gap Wax

▶ **Master® Gap Wax** is a soft wax developed for quickly and easily filling gaps in Sheet Wax as well as patching, fixturing, and filleting. Master Gap Wax is applied at room temperature and can be used as an alternative to clay, especially when adhesion to the composite material is preferred.

## Use Master Gap Wax in three easy steps!

## Physical Properties

Color	Green
Ring & Ball Softening Point	145 (+/-6) °F
Flash Point	465°F
Relative Density	0.9 (+/-0.05) g/cc
Viscosity	Paste

## Ordering Information

SKU	Size	Net Weight
119669	Quart	1.8 lb.
119668	Gallon	7 lb.
