Pages 68-69

Freeman Pattern Plywoods are manufactured from $1\frac{1}{8}$ " to 2" in thickness for use in making large core box bottom boards and sides, large cope & drag plates, or general heavy duty applications. These plywoods feature "almost void free" construction throughout.

Freeman Maple-Faced Pattern Plywood

Smooth Maple facing on both faces with a solid pine interior combines quality with economy in a thick plywood panel.

Availability: $1\frac{1}{8}$ " to $1\frac{3}{4}$ " thicknesses, 48" widths, 96" lengths

Freeman Pine Pattern Plywood

Solid Pine construction combines a smooth surface with durability for a thick plywood panel.

Availability: $1\frac{1}{8}$ " to $1\frac{3}{4}$ " thicknesses; 48" widths; 96" lengths

Eurobirch Plywood

Eurobirch is our highest quality plywood. It is suitable for pattern plates, core box construction, or any heavy duty application. All sizes are equivalent to BB/BB grade.

Availability: $\frac{3}{4}$ ", 19mm, or 24mm thicknesses; 48" widths; 96" lengths

Euroform Plywood

Euroform is made with the same high quality construction as Eurobirch with the addition of thermally fused phenolic facings for durability and moisture resistance. It is excellent for pattern plates or core box construction.

Availability: $\frac{3}{4}$ " or 1" thicknesses; 48" widths; 96" lengths

PLYWOOD & SHEET MATERIALS CONTINUED

Our Plywood is stocked in multiple warehouse locations across the country.

Baltic Birch Plywood

Premium Baltic Birch is imported from the finest mills to offer you a dimensionally-stable high-quality birch panel. Thin multi-ply veneer construction adds strength and stability. This board is ready for a variety of applications at a great value. Contains interior CARB-compliant adhesive. Not recommended for exterior use.

Availability: $\frac{1}{2}$ ", $\frac{5}{8}$ ", or $\frac{3}{4}$ " thicknesses; 48" widths; 60", 72", or 96" lengths

MDO (Medium Density Overlay) Fir Plywood

MDO Plywood is produced with a resin-treated fiber overlay on both sides that is generally smooth and opaque. This allows for rapid, even paint and coating applications. MDO Plywood is manufactured with 100% waterproof adhesives and has an inner ply construction of C grade veneers and B grade or better face and back veneers.

Availability: $\frac{3}{4}$ " thickness; 48" width; 96" length

Fir Plywood

Suitable for general construction requirements, this plywood is manufactured with solid fir laminations.

Availability: 1" thickness; 48" width; 96" length

Birch-Faced Plywood

Freeman offers an extensive selection of smooth surface birch-faced plywoods for a variety of woodworking applications. All thicknesses contain a veneer core.

Availability: $\frac{1}{2}$ " to 1" thickness; 48.5" width; 96.5" length

Acetate Sheet

This clear economy cellulose acetate sheet can be used for template and layout work.

Availability: Packaged flat in 20" x 50" sheets, in 0.02" and 0.03" thicknesses.
