115 Years of Excellence

The year Freeman was founded...

- ▶ The first college football bowl game was held in California
- ▶ The U.S. President was Theodore Roosevelt
- ▶ Electric Theatre, the first movie theater in the United States, opened in Los Angeles, California
- ▶ The first teddy bear was produced
- ▶ American writer John Steinbeck was born

"Humble Beginnings"

1902 Bill Freeman resold excess shop materials to other foundry pattern shops in the Toledo, OH area. This side business was named Freeman Pattern Supply and moved to Toledo as a regional supplier.

Mid-Century Expansion

1960s Freeman acquired several similar suppliers around the country and became the nation's largest tooling material supplier to pattern shops. This enabled Freeman to serve the rapidly growing automotive and aerospace industries.

Entry into Manufacturing

Also in the 1960s, Freeman expanded into manufacturing with the acquisition of a specialty wax manufacturer in Cleveland, OH, officially becoming Freeman Manufacturing and Supply Company.

Growth & Expansion

Restructuring & Building Partnerships

1980s Freeman was restructured and streamlined: the headquarters moved to Cleveland, OH and the largest branch was opened near Detroit, MI. The tooling plastics manufacturing division developed and grew while an enduring partnership began with CIBA, later Huntsman Advanced Materials.

The Move to Avon

1998 Freeman's new facility in Avon, OH (near Cleveland) became its headquarters to this day. Since then, it has expanded to 150,000 sq. ft. in order to accommodate the growing staff and reliable stocking of products.

1902 vs. Now

- Then: 1 Location
▶ **NOW: 12 Locations**
- Then: Serving local Toledo area
▶ **NOW: Worldwide shipping**
- Then: 1 Industry (Foundry)
▶ **NOW: More than a dozen Industries**
- Then: Less than 50 products
▶ **NOW: Nearly 700 products**
- Then: Fewer than 10 employees
▶ **NOW: 120+ employees nationwide**
- Then: Delivery by train, boat & buggy
▶ **NOW: Shipping via all carriers**

Geographical Growth & Major Acquisitions

2000s Several warehouses and sales territories were added, ultimately covering a majority of North America. Several companies were acquired.

M^F COMPOSITES

Montreal-based supplier of tooling and composite materials

Pattern supply and specialty wax divisions of Kindt-Collins Co.

Leading distributor of die boards and other steel rule die materials

Jewelry wax manufacturer based out of New Jersey

Freeman Today

We've come a long way in 115 years! While the traditional pattern shop supply business remains at our core, Freeman services numerous industries and is continually expanding in order to serve a wide range of customers.

Industries & Applications

- ▶ Automotive & aircraft
- ▶ Modelmaking
- ▶ Rapid prototyping
- ▶ Jewelry manufacturing
- ▶ High-performance composites construction
- ▶ Vacuum forming
- ▶ Steel rule diemaking
- ▶ Injection molding
- ▶ Metal stamping
- ...and much more!

Branch Locations and Public Warehouses

Freeman has strategically placed satellite locations across North America with customer service representatives ready to help. Thousands of products are stocked at these locations as well as public warehouses to reduce your shipping costs.

Strategic & Effective Stocking

Freeman's inventory staff constantly monitors sales and stocking data across the country to properly provide the right amount of products at each location.

Worldwide Shipping

Freeman ships orders all across the globe and has various international distributors available to supply customers with top-quality products.

Did You Know...

...Freeman has an industry-leading team of technical representatives?

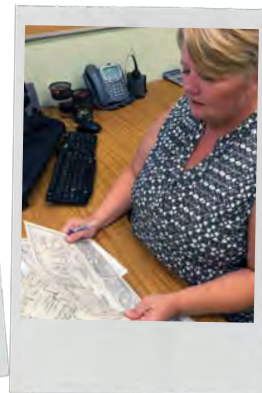

With collectively over 100 years of technical experience, our representatives and their personal connections provide creative solutions for our customers' problems. Our technical reps are located across North America to provide in-person technical assistance, handle local shipping and stocking questions, and build relationships with our customers that last a lifetime.

...Freeman has an in-house Technical Team and Lab?

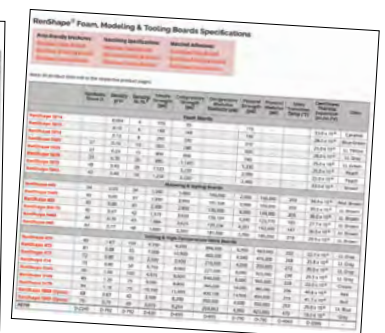

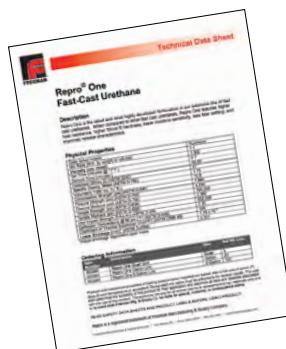

Our Tech Team and Lab work closely together to test current and potential products for quality and specifications. The Lab is always working on new product development as well as continuous improvement of existing products.

Our Technical staff is available to answer any question, large or small, via email or phone. Simply reach out and they will be able to assist!

...Freeman provides technical information for products?

Looking for safety or technical data?
Our website has it all!
Simply enter the product you're looking for more information on and follow the links.
These resources are easily accessible and constantly updated. Visit our website to access all our technical data!

...Freeman's Newsletter features exclusive deals, videos & more?

Access exclusive content by signing up for our newsletters!

We work hard to bring you the best content 6 times a year with product spotlights and promotions, special deals, technical tips, and more!

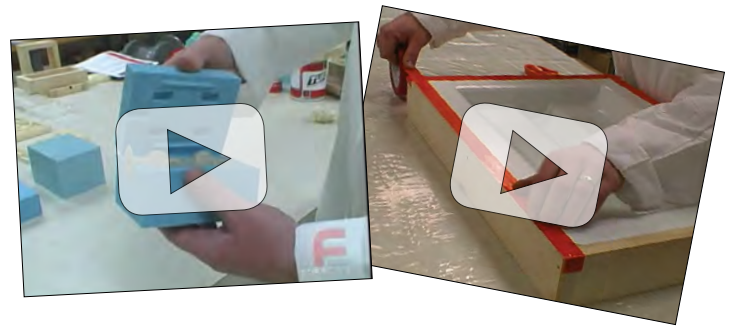

Sign up today to be the first to hear about new products, new videos, and featured solutions and techniques at www.FreemanSupply.com/newsletter

...Freeman has a complete instructional video library?

Freeman's video library contains over three hours of instructional and product videos, making it the most comprehensive free resource for making parts, patterns, tools and molds.

Simply visit our Library on our website or subscribe to our channel on YouTube (@freemanmfg). You'll be able to stream our videos as well as ask technical questions. Our Tech Team monitors our YouTube account and answers your questions.

...Freeman's website is constantly upgraded with new features?

Since we've unveiled our revamped website, we've added features such as a favorites list, quote builder, interactive closeout list, web discounts, quotes/order history, and more!

Now, you can get all of that and more with a **Freeman 360° Account!** Make sure to keep checking back – we're always adding new features to make your experience hassle-free.
