PRESERVE. PROTECT. PREVENT.™

Sprayon® SP™ 603 Blue Layout Dye applies a smooth, even coat for all layout work. Dark blue color provides sharp contrast of scribed lines against clean surface. Dries instantly and will not rub off. Fine, clean lines can be drawn on this non-glaring, non-flaking coating. Adheres to all metals, aluminum or glass. Removes easily with Sprayon® SP™ 606 Layout Dye Remover.

USES

- Tool and die makers
- Machinists
- Maintenance mechanics
- Pattern makers

SPECIALTY PRODUCTS

APPLICATION

Surface must be free of grease, dirt, and oil. Use in a well ventilated area. Shake can until ball rattles for 1 minute. Hold container upright 6-8" from the surface. Do not apply in continuous spray. To avoid runs, apply several thin coats allowing paint film to become tacky between coats. For best results, use at room temperature (70°F.) After spraying, turn can upside down and spray until clear propellant comes out.
