

Red Devil Mixer

Description

The Red Devil Model 1400-00 Mixer is the new standard by which all other electric shakers are measured. Designed for rugged use this mixer is invaluable for agitating paint and plastic resin systems. Ideal for use with our Repro fast cast urethane systems.

This new design incorporates a heavy duty clamp design and a full safety enclosure.

The heavy-duty twin arm design allows for the mixing of up to six pints, four quarts, two gallons or any combination at one time.

The clamps accommodate and securely hold either plastic or metal containers.

Designed with a 15 minute timer for controllable mixing.

Features a three-way agitation action for smooth, quiet, and thorough mixing. The mixer may be bench or pedestal mounted.
