Tooling Products Formulation Change – Raw Material Discontinuation
Re: Ren® 6402-2 & Ren® 6403-2

Dear Valued Customer:

As previously communicated, due to discontinuation of a key raw material used as a catalyst in many tooling products, Huntsman Advanced Materials will be replacing this catalyst with a suitable alternate material. This will result in a change in formulation and a minor modification in the specification which should not impact the final end product properties. As a result we will be changing the product codes with a nomenclature change (for example, -2 versus -1 at the end).

Reformulation of Ren® 6402-2 and Ren® 6403-2 is now complete and the new product codes are provided below. Changes for the last product, Ren® 6410-2, are expected to be finalized in May and communication will follow.

Current		NEW	
SKU Number	Material Name	SKU Number	Material Name
2740708	REN® 6402-2 US PL 26LB U1	3968008	REN® 6402-3 US PL 26LB U1
2740908	REN® 6402-2 US D 450LB U1	3967908	REN® 6402-3 US D 450LB U1
2745608	RENCAS [®] 6402-2 A/B US G 7.75LB U1	3968108	RENCAS [®] 6402-3 A/B US G 7.75LB U1
2792608	REN® 6403-2 US PL 40LB U1	3967808	REN® 6403-3 US PL 40LB U1
2792708	RENCAS [®] 6403-2 A/B US G 12LB U1	3967708	RENCAS [®] 6403-3 A/B US G 12LB U1

Please remember that changes such as these to Huntsman Advanced Materials products reflect our focused and continuous commitment to the industry. Should you have any questions, please feel free to contact your sales representative.

Sincerely,

Ann Mansfield
 Product Manager
