### Miapoxy.com update

Make sure to check out the upgrade to our [Miapoxy.com](http://Miapoxy.com) hobbyist website. We've completed a major update behind the scenes to include a new look and faster checkout. We will continue to improve the content and functionality over the following months.

**UPDATED:** [Miapoxy.com](http://Miapoxy.com), our DIY and Hobbyist site, has quick info & immediate ordering capabilities.

### **Freeman website overhaul coming soon**

We are excited to announce the development of a **new and improved [FreemanSupply.com](http://FreemanSupply.com)**! The following improvements are pending while we work toward an early summer launch. We appreciate your patience!

- *A fresh, modern look*
- *Upgraded functionality*
- *Integration with Members Only*
- *Easier navigation*
- *Faster "check out" quote system*
- *Enhanced order history and tracking access*

It's easy to get a **quote!** You have access to complete pricing and availability info for thousands of products.

## Machinable Media Sample Kit

We're working on updating our Machinable Media Sample Kit. Our new kit will feature bigger samples (suitable for small CNC demos) and better packaging. Stay tuned for the official launch!

We offer multiple [Sample Kits](#) for a variety of products and applications.

### Exclusive videos

The following videos are exclusive to newsletter subscribers. New videos will be linked here before they are available anywhere else. Check out below to see what's available now.

- **NEW: Creating a Part with Freeman Fillers** (choose a version) [Quicktime](#) | [Windows Media Player](#)
- [Casting Thin-Walled Parts](#)
- [Casting Molds & Models with Intricate Detail](#)
- [Multiple Cavity Molds](#)
- [Silicone Rubber Molds with Complex Parting Lines](#)
- [Building an Epoxy/Fiberglass Mold](#)
- [Vacuum Bagging a Carbon Fiber Part](#)

More videos are in development, so be sure to check back.

**PLEASE NOTE:** Our [Members Only](#) portal has been temporarily down while we complete a significant upgrade to be launched later this year.

Read past issues and Q&A in the [archives](#).

### Tech Line Q&A

We feature technical questions in every issue, so don't miss the archives.

Still can't find the answer you're looking for? Our technical support staff is available during normal business hours, Monday through Friday, by

calling (800) 321-8511 (option 5).

**Q: We would like to reproduce a 12" plaque for the outside of a house. What product would work best?**

**A: [Repro Light](#)** is a great lightweight option for your project. Make sure to paint the finished product, as Repro is not UV resistant. Repro Light is a popular product for decorative molding on both the

Our [Close Out List](#) has great deals on hundreds of products.

Note: all Close Out items are subject to prior sale.

interior and exterior of buildings.

**Q: Why do I have pinholes in my polyester repair paste?**

A: These pin holes are most likely caused by air entrapment. Our [Red Utility Glazing Putty](#) can be used to repair the surface.

As always, our [website](#) features additional resources such as TDS, MSDS, and more for all of our products. Thank you for subscribing to our newsletter. We look forward to the next opportunity to service your material needs.

*Sincerely,  
Freeman Manufacturing & Supply Company*
